

When appetite is low, meet nutritional needs with small volumes

Nestlé Health Science
2 kcal/mL range

Small on volume.
Big on nutrition.

Information for healthcare professional use only.

Nutrient-dense nutrition supplements are ideal for MedRounds

What is MedRound?

Providing a small volume of nutrient-dense oral nutritional supplement with routine medication rounds.

How will this benefit my patients/residents?

The low volume doses distributed through the day enhances the compliance allowing patients to meet their nutritional needs.

Administering a 2 kcal/mL formula in conjunction with medication rounds:^{1,2}

- Improves patient compliance
- Increases energy and protein intake
- Assists weight gain
- Improves wound healing outcomes.

**MedRound with RESOURCE® 2.0 (4 x 60mL/day)
or RESOURCE® 2.0 + Fibre (4 x 50mL/day) can
help improve nutritional status**
