COMPLEAT® Paediatric

Product Format	Units per Case	Flavour	Code	Order Qty (Units)
500mL Ready-to-Hang Bottle	12	Neutral	12487452	

IMPORTANT NOTICE:

Breast milk is best for babies and provides ideal nutrition. Good maternal nutrition is important for the preparation and maintenance of breastfeeding. Introducing partial bottle feeding could negatively affect breastfeeding and reversing a decision not to breastfeed is difficult. Professional advice should be followed on infant feeding. Infant formula should be prepared and used exactly as directed or it could pose a health hazard. The preparation requirements and weekly cost of providing infant formula until 12 months of age should be considered before making a decision to formula feed. Mothers should be encouraged to continue breastfeeding even when their infants have cow's milk protein allergy. If a decision to use an infant formula for special dietary use is taken, it must be used under medical supervision.

RESOURCE® 2.0, RESOURCE® 2.0 + Fibre, RESOURCE® Plus, RESOURCE® Protein, RESOURCE® Fruit Flavoured Beverage, RESOURCE® ULTRA Clear Fruit Flavoured Beverage, RESOURCE® ULTRA+, RESOURCE® Crema 2.0, ISOSOURCE® 1.5 CAL, ISOSOURCE® Soy Energy Fibre, ISOSOURCE® 2.0, and NOVASOURCE® GI Forte are food for special medical purposes specifically formulated for medical conditions where nutritional needs cannot be met through diet modification alone. Must be used under medical supervision. Nutritional supplements can only be of assistance where dietary intake is inadequate. Please seek advice on your individual dietary needs from an Accredited Practising Dietitian or your healthcare professional. SUSTAGEN® Hospital Formula and SUSTAGEN® Hospital Formula Plus Fibre are formulated meal replacements and cannot be used as total diet replacements. Consume as part of a varied and balanced diet and healthy lifestyle.
