

Early nutrition intervention can make a difference over the course of your patient's treatment

Our portfolio supports the evolving nutritional
needs of patients with cancer

For patients with cancer-related MALNUTRITION

Sarcopenia & Loss of Appetite	Weight Loss & Muscle Loss		Taste Alterations or Oral Discomfort		Poor Appetite & Weight Loss	Reduced Appetite & Weight Loss
Small volume High Protein & High Energy	High Protein & High Energy		Clear Fluid & Fat Free		High Energy pudding Dysphagia friendly	High Protein fortification powder
						
RESOURCE® ULTRA+ 125mL	RESOURCE® 2.0 250mL	RESOURCE® 2.0 + Fibre 200mL	RESOURCE® ULTRA Clear Fruit Beverage 200mL	RESOURCE® Fruit Flavoured Beverage 237mL	RESOURCE® Crema 2.0 125g	SUSTAGEN® Hospital Formula 840g
Energy Density: 2.25kCal/mL Protein: 20g/serve	Energy Density: 2.0kCal/mL Protein: 20g/serve	Energy Density: 2.0kCal/mL Protein: 18g/serve	Energy Density: 1.5kCal/mL Protein: 14g/serve	Energy Density: 1.06kCal/mL Protein: 9g/serve	Energy Density: 2.0kCal/g Protein: 12.5g/serve	Energy Density: 1.0kCal/mL Protein: 13.8g/serve
<ul style="list-style-type: none"> • Small 125mL volume helps with compliance. • Unique blend of 60% whey protein and 40% casein. (As percentage of total protein). 	<ul style="list-style-type: none"> • Creamy taste. • Suitable for medication round use and enteral use. 	<ul style="list-style-type: none"> • High fibre: 5g/serve. • Suitable for medication round use. 	<ul style="list-style-type: none"> • 100% Whey protein isolate. • Pre and post operative (clear fluid diets). 	<ul style="list-style-type: none"> • 100% Whey protein. • 19 vitamins & minerals to help fill nutritional gaps. 	<ul style="list-style-type: none"> • Pudding texture to help intake when soft foods are preferred. • Nutritionally complete. 	<ul style="list-style-type: none"> • Neutral flavour to add to food and drinks. • 6 flavours available. • Nutritionally complete.

The **right nutrition** can help patients with the **strength** they need during cancer treatment.

Up to
80%

of patients experience **malnutrition** risk at some point during cancer treatment, with **>50% exhibiting** or at risk of malnutrition at their first oncology visit.^{1,2}

Up to
60%

of cancer patients **do not consume adequate protein** which puts them at risk of muscle mass loss.³⁻⁵

The right **medical nutrition** is integral to maximising cancer treatment outcomes in patients needing **additional support** or those experiencing **side effects** from cancer treatment

Our portfolio supports the evolving nutritional needs of patients with cancer

For patients with cancer-related SUPPORTIVE CARE needs

Immunonutrition Support for Major Surgery	Wound Healing Delays & Chronic Wounds	Dysphagia or Swallowing Difficulties	Insufficient Oral Intake
Pre & Post Operative care	Support 2x faster wound healing ^{6**}	Modify food or drink consistency	Enteral use
			
IMPACT® Advanced Recovery 250mL	ARGINAID® 9.2g sachets	THICKENUP® Clear 125g	NOVASOURCE® GI Forte 1000mL
Energy Density: 1.1kCal/mL Protein: 26g/serve	Energy Density: 0.13kCal/mL L-arginine: 4.5g/serve	Energy: 3.7kCal / 1.2g	Energy Density: 1.55kCal/mL Protein: 60g/1000mL
<ul style="list-style-type: none"> • Elective oncology patients* go in stronger and get home sooner. • Clinical studies show fewer post operative infections and shorter hospital stays when consumed 5 days pre and post operatively. 	<ul style="list-style-type: none"> • Shown to improve the rate of wound healing when taken twice daily.** 	<ul style="list-style-type: none"> • For dysphagia caused by cancers and their treatment. • Thickening agent for liquids and food to help manage swallowing difficulties. 	<ul style="list-style-type: none"> • Improves overall tolerance to enteral feeding. • High-calorie and protein tube feed with partially hydrolyzed guar gum (PHGG) to manage enteral nutrition-induced diarrhoea.

*Evidence supports positive outcomes through nutritional management of major elective surgery patients, including Upper GI, Head and Neck Cancer, Lower GI, Cardiac, Bladder Cancer, Gynecological Oncology.

**Taking 2 serves of ARGINAID® daily until wound was completely healed, showed a 2-fold faster healing in well-nourished patients.
